DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On claim 34, line 1, before the term "An article" , **insert** (Newly added)

The following is an examiner's statement of reasons for allowance:

Claims 4, 24, 25, 28 and 29 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a hierarchy of at least one higher triggering action related to a lower triggering action such that said lower triggering action comes within said higher triggering action for a single triggering index that is formed for a single lower triggering action, as detailed in independent claim 4.

Claims 5, 26-27, 30, 31 and 34 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a basis index information defines information concerning a composite index that is formed by at least two triggering action acting together, as detailed in independent claim 5.

Claims 6, 8 and 32-33 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest generating an index corresponding to said triggering action based on said effective time range and calculating a weight value from an algebraic formula containing said first timespan, said second timespan and a weight constant, as detailed in independent claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
